

EDLO Surgical Instruments  
**Efficient, effective  
and reliable.**

The EDLO brand has been operating in the surgical instruments market, for several years. It provides products for conventional surgery, dentistry and endoscopic surgery.

The EDLO product line was designed to meet the specific needs of those working in healthcare. It covers various medical specialties, such as **General Surgery, Cardiovascular Surgery, Trauma-Orthopedics, Dentistry, Veterinary medicine, Endoscopic surgery, and others.** We also supply the Peters Surgical Hemostatic Clips in Brazil.

The equipment is of the exacting quality required by international standards, such as **ISO and DIN**, and is available to customers in Brazil, the United States and Europe. Our Quality Management System is in line with the International Standard **ISO 13485:2016: Requirements for Medical Devices and Good Manufacturing Practice: ANVISA.**

CONVENTIONAL

## SURGERY LINE

EDLO supplies a complete line for conventional surgery and for various medical specialties, which is produced from high quality and durable surgical steel.

EDLO continuously invests in research and development, and manufactures products that are guaranteed to be precise and effective in several different health areas:

- GENERAL SURGERY
- CARDIOVASCULAR SURGERY
- TRAUMA AND ORTHOPEDICS
- DENTISTRY
- NEUROLOGY
- GYNECOLOGY AND OBSTETRICS
- EAR, NOSE AND THROAT
- VETERINARIAN MEDICINE
- AND MORE.

*We offer the confidence of a company who manufactures products with durability and excellent performance for the most demanding healthcare professionals.*

## ENDOSCOPIC

### SURGERY - REUSABLE

The main attributes of the EDLO line of reusable instruments for endoscopic surgery are their durability, anatomical shape and lightness.

With additional accessories as well, it is one of the most complete lines on the market, with tweezers, cannulas, aspirators and scissors.

*A complete line  
for minimally  
invasive procedures  
that require high  
precision*

## TITANIUM

### LINE

The EDLO Titanium Line is produced in titanium, which is a highly tough and durable metal. The instruments are delicate, light and easy to handle. They were designed specifically for heart surgery on children and for some specific uses in adults. They are also easily identifiable due to their satin metallic blue color.

*They are tough  
and durable  
for delicate surgery,  
where special  
instruments  
are required.*

TITANIUM 

# ENDOSCOPIC

## SURGERY - DISPOSABLE

EDLO supplies an exclusive line of Hemostatic Clips for Endoscopic surgery.

The Hemostatic Clips are from the Peters Surgical brand. They are highly effective for use in hemostasis procedures, the occlusion of vessels, nerves and small structures.

*A special line for  
minimally invasive  
procedures  
that require  
high precision*

# ENDOSCOPIC

## SURGERY TOWER

The EDLO Endoscopic Surgery Tower allows you to operate different equipment as required. This allows you to have all your instruments in one place, ensuring everything is organized and efficient during surgery.
