EDLO 

Catálogo de
Cirurgia Geral

**EDLO - Cada vez mais completa,
há 50 anos dedicada à vida**

Com mais de 50 anos de atuação no mercado de instrumental cirúrgico, a EDLO figura como a maior empresa do ramo no Brasil. Sediada em Canoas, no Rio Grande do Sul, abastece não apenas todo o território nacional, mas também os mercados norte americano e o Europeu, através de cinco linhas médicas distintas: Convencional, Cardio, Odonto, Traumato-Ortopedia e Videolaparoscopia. Além disso, é distribuidora exclusiva dos Clips Hemostáticos no Brasil.

Além da produção dessa extensa linha de produtos, a empresa possui o diferencial de atender às especificações e necessidades particulares de cada profissional, executando com uma equipe altamente qualificada o atendimento de pedidos e medidas personalizadas de seus instrumentos cirúrgicos. Essa adaptabilidade se traduz em equipamentos que satisfazem completamente o mercado, oferecendo através da excelência profissional a segurança exigida para os mais variados procedimentos médicos. A EDLO orgulha-se de estar sempre à frente das mais novas tecnologias e técnicas de produção, investindo em Pesquisa e Desenvolvimento de produtos e em especificações Internacionais de matéria-prima (normas DIN). Por isso, é detentora de certificações como ISO-13485 (norma específica para produção e rastreabilidade de produtos destinados à saúde), Boas Práticas de Fabricação (ANVISA), além de registros no F.D.A. - Food and Drug Administration dos Estados Unidos, Marcação CE Mark da Comunidade Européia e registros no Ministério da Saúde no Brasil.

Para oferecer o melhor custo-benefício, atua no mercado com o sistema de venda direta ao consumidor, e disponibiliza uma rede de consultores de vendas por todo o Brasil, e conta também com representantes internacionais que distribuem os produtos para vários países em todo o mundo.

Por todas essas razões, a EDLO tem, além da experiência, matéria-prima com qualidade internacional, design, performance e resistência que permitem oferecer toda a confiança de quem produz o melhor, para os profissionais mais exigentes.

EDLO - Cada vez mais completa. Cada vez melhor.

Over fifty years of experience, EDLO is the biggest company in Brazil in the market of surgical instruments. It is headquartered in Canoas, Brazil. And it supplies not only national borders, but also North American and European markets as well, throughout five distinct medical lines: Convencional, Cardiovascular, Videolaparoscopic, Traumato Surgery and Dentistry. Besides that, it is the exclusive distributor of Hemostatic Clips in Brazil.

Besides the production of this extensive line of products, the company has the distinction of meeting the specifications and needs of each professional, running with a highly qualified order fulfillment and its tailor-made surgical instruments. This adaptability is reflected in equipment that fully satisfy the market, providing professional excellence through the security required for various medical procedures.

EDLO is proud to be one step ahead of the latest technologies and production techniques, investing in Research & Product Development and International specifications of raw, to best qualify its products and processes. As a result, it was granted by BSI with the CE marking and ISO 13485:2016; by the brazilian Ministry of Health with the GMP (Good Manufacturing Practices); and by the FDA (Food and Drug Administration).

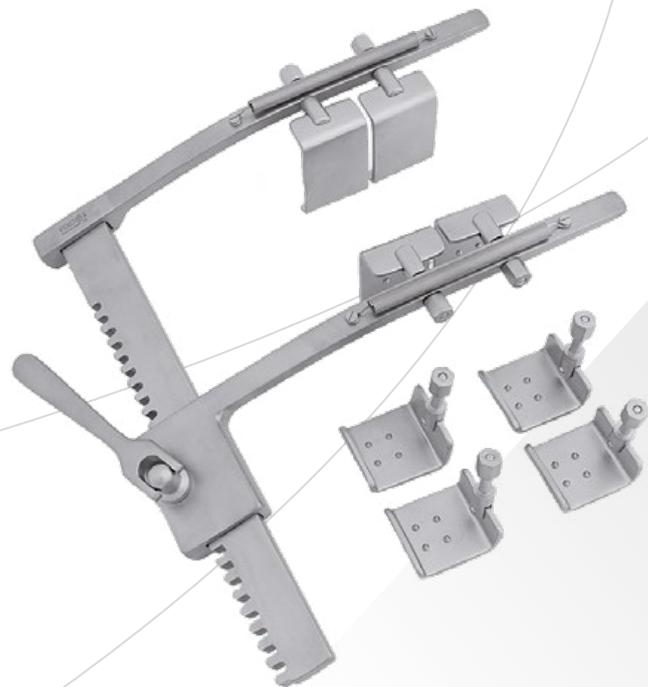

To provide the most cost-benefit, works in the market with the system of direct sales to consumers, and offers a network of sales consultants throughout Brazil, and also has international representatives who distribute products to many countries around the world.

For all these reasons EDLO has, besides the experience, raw material with international quality, design, performance and endurance that enable all the confidence of those who produce the best, for the most demanding professionals.

EDLO - Quality Concept.

HARDTIP

PORTA AGULHAS COM INSERTOS DE CARBONETO DE TUNGSTÊNIO

NEEDLE HOLDERS WITH TUNGSTEN CARBIDE INSERTS

PORTA-AGUJAS CON BOCAS DE CARBURO DE TUNGSTENO

Benefícios

- Prende a agulha de sutura com muito mais firmeza.
- Evita que a agulha deslize ou gire durante a sutura.
- Apresenta maior durabilidade.
- Ausência do desgaste característico dos porta agulhas comuns.

Ventajas

- Prensa la aguja de sutura con mucho mas firmeza.
- No permite el deslizar o el giro de la aguja cuando en uso.
- Mayor durabilidad.
- Ausencia del desgaste propio de los porta-agujas comunes.

Advantages

- Firmly hold surgical suture needle.
- Avoid needle skidding or twisting when in use.
- Lifetime durability greater than conventional simple models.
- Free from wear down of common needle holders.

DURACORTE

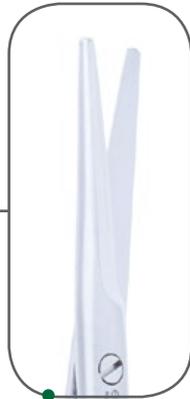

Maior durabilidade de corte
Mayor durabilidad del corte
Long life cutting

Duracorte[®]

- O perfeito ajuste das lâminas das tesouras DURACORTE e o tratamento aplicado na face do corte, garantem cortes precisos, suaves e de excepcional durabilidade.
- Las tijeras DURACORTE presentan un perfecto ajuste de sus láminas y el tratamiento aplicado en los filos de corte garantizan cortes exactos, blandos y de mayor durabilidad.
- DURACORTE scissors offers an exceptional cutting accuracy due to its high resistance edges against wear and tear, resulting in its long life.
